

Performance Test Scenarios	Test Type
Homepage	
Verify if site works effieciently when 50 users login at the same time	Load Testing
Verify if site works effieciently when 100 users login at the same time	Load Testing
Verify if site works effieciently when 500 users login at the same time	Load Testing
Verify if site works effieciently when 1000 users login at the same time	Load Testing
Verify if site works effieciently when 5000 users login at the same time	Stress Testing
Verify if site works effieciently when 50 users access "What we Teach" at the simultaneously	Load Testing
Verify if site works effieciently when 100 users access "What we Teach" at the simultaneously	Load Testing
Verify if site works effieciently when 500 users access "What we Teach" at the simultaneously	Load Testing
Verify if site works effieciently when1000 users access "What we Teach" at the simultaneously	Load Testing
Verify if site works effieciently when5000 users access "What we Teach" at the simultaneously	Stress Testing
Verify if site works effieciently when 50 users access Hamburger Icon at the same time	Load Testing
Verify if site works effieciently when 100 users access Hamburger Icon at the same time	Load Testing
Verify if site works effieciently when 500 users access Hamburger Icon at the same time	Load Testing
Verify if site works effieciently when1000 users access Hamburger Icon at the same time	Load Testing
Verify if site works effieciently when5000 users access Hamburger Icon at the same time	Stress Testing
Verify if site works effieciently when 50 users buy "Data Analytics Bootacmp" at the same time	Load Testing
Verify if site works effieciently when 100 users buy "Data Analytics Bootacmp" at the same time	Load Testing
Verify if site works effieciently when 500 users buy "Data Analytics Bootacmp" at the same time	Load Testing
Verify if site works effieciently when 1000 users buy "Data Analytics Bootacmp" at the same time	Load Testing
Verify if site works effieciently when 5000 users buy "Data Analytics Bootacmp" at the same time	Stress Testing
Verify if site works effieciently when 1000 users buy "Data Analytics Bootacmp" at the same time when there is big bumper sale going on live	Spike Testing
Verify if site works effieciently when 50 users checkout "Data Analytics Bootacmp" at the same time	Load Testing
Verify if site works effieciently when 100 users checkout "Data Analytics Bootacmp" at the same time	Load Testing
Verify if site works effieciently when 500 users checkout "Data Analytics Bootacmp" at the same time	Load Testing
Verify if site works effieciently when 1000 users checkout "Data Analytics Bootacmp" at the same time	Load Testing
Verify if site works effieciently when 5000 users checkout "Data Analytics Bootacmp" at the same time	Stress Testing
Verify if site works effieciently when 5 users browse throughout the website for 3-4 hours at the same time	Endurance Testing
Verify if site works effieciently when 50 users browse throughout the website for 3-4 hours at the same time	Endurance Testing
Verify if site works effieciently when 500 users browse throughout the website for 3-4 hours at the same time	Endurance Testing
Verify if site works effieciently when 1000 users browse throughout the website for 3-4 hours at the same time	Endurance Testing
Verify if site works effieciently when 50 users search about the existing course at the same time	Load Testing
Verify if site works effieciently when 100 users search about the existing course at the same time	Load Testing
Verify if site works effieciently when 500 users search about the existing course at the same time	Load Testing
Verify if site works effieciently when 1000 users search about the existing course at the same time	Load Testing
Verify if site works effieciently when 5000 users search about the existing course at the same time	Stress Testing
Verify if site works effieciently when 50 users Preview about the Data analytics course at the same time	Load Testing
Verify if site works effieciently when 100 users Preview about the Data analytics course at the same time	Load Testing
Verify if site works effieciently when 500 users Preview about the Data analytics course at the same time	Load Testing
Verify if site works effieciently when 1000 users Preview about the Data analytics course at the same time	Load Testing
Verify if site works effieciently when 5000 users Preview about the Data analytics course at the same time	Stress Testing
Verify if site works effieciently when 50 users Join the upcoming live webinar at the same time	Load Testing
Verify if site works effieciently when 100 users Join the upcoming live webinar at the same time	Load Testing
Verify if site works effieciently when 500 users Join the upcoming live webinar at the same time	Load Testing
Verify if site works effieciently when 1000 users Join the upcoming live webinar at the same time	Load Testing
Verify if site works effieciently when 5000 users Join the upcoming live webinar at the same time	Stress Testing
Verify if site works effieciently when 50 users watch the specfic Featured Learning video at the same time - Quick Learning Tips	Load Testing

Verify if site works effieciently when 100 users watch the specifc Featured Learning video at the same time - Quick Learning Tips	Load Testing
Verify if site works effieciently when 500 users watch the specifc Featured Learning video at the same time - Quick Learning Tips	Load Testing
Verify if site works effieciently when 1000 users watch the specifc Featured Learning video at the same time - Quick Learning Tips	Load Testing
Verify if site works effieciently when 5000 users watch the specifc Featured Learning video at the same time - Quick Learning Tips	Stress Testing
Verify if site works effieciently when 50 users watch the specifc Featured Learning video at the same time - Learning Strategies	Load Testing
Verify if site works effieciently when 100 users watch the specifc Featured Learning video at the same time - Learning Strategies	Load Testing
Verify if site works effieciently when 500 users watch the specifc Featured Learning video at the same time - Learning Strategies	Load Testing
Verify if site works effieciently when 1000 users watch the specifc Featured Learning video at the same time - Learning Strategies	Load Testing
Verify if site works effieciently when 5000 users watch the specifc Featured Learning video at the same time - Learning Strategies	Stress Testing
Verify if site works effieciently when 50 users Subscribe the mailing form at the same time	Load Testing
Verify if site works effieciently when 100 users Subscribe the mailing form at the same time	Load Testing
Verify if site works effieciently when 500 users Subscribe the mailing form at the same time	Load Testing
Verify if site works effieciently when 1000 users Subscribe the mailing form at the same time	Load Testing
Verify if site works effieciently when 5000 users Subscribe the mailing form at the same time	Stress Testing
Verify if site works effieciently when 50 users access Social Media Links at the footer at the same time	Load Testing
Verify if site works effieciently when 100 users access Social Media Links at the footer at the same time	Load Testing
Verify if site works effieciently when 500 users access Social Media Links at the footer at the same time	Load Testing
Verify if site works effieciently when 1000 users access Social Media Links at the footer at the same time	Load Testing
Verify if site works effieciently when 5000 users access Social Media Links at the footer at the same time	Stress Testing
Verify if site works effieciently when 50 users access Social Media Links at the footer at the same time - LinkedIn	Load Testing
Verify if site works effieciently when 100 users access Social Media Links at the footer at the same time - LinkedIn	Load Testing
Verify if site works effieciently when 500 users access Social Media Links at the footer at the same time - LinkedIn	Load Testing
Verify if site works effieciently when 1000 users access Social Media Links at the footer at the same time - LinkedIn	Load Testing
Verify if site works effieciently when 5000 users access Social Media Links at the footer at the same time - LinkedIn	Stress Testing
Verify if site works effieciently when 50 users watch the live webinar for 3-4 hours at the same time	Endurance Testing
Verify if site works effieciently when 100 users watch the live webinar for 3-4 hours at the same time	Endurance Testing
Verify if site works effieciently when 500 users watch the live webinar for 3-4 hours at the same time	Endurance Testing
Verify if site works effieciently when 1000 users watch the live webinar for 3-4 hours at the same time	Endurance Testing
Verify if site works effieciently when 1000 users access Social Media Links at the footer at the same time - LinkedIn while recruiting going on	Peak Load Testing
Verify if site works effieciently when 1000 users check the info of in-demand course (Such as AI leverage courses) in market at the same time -	Peak Load Testing
Verify if site works effieciently when 5000 users check the info of in-demand course (Such as AI leverage courses) in market at the same time -	Spike Testing
Data Analytics	
Verify if site works effieciently when 50 users access Data Analytics - Overview at the same time	Load Testing
Verify if site works effieciently when 100 users access Data Analytics - Overview at the same time	Load Testing
Verify if site works effieciently when 500 users access Data Analytics - Overview at the same time	Load Testing
Verify if site works effieciently when 1000 users access Data Analytics - Overview at the same time	Load Testing
Verify if site works effieciently when 50 users access Data Analytics - Course Details at the same time	Load Testing
Verify if site works effieciently when 100 users access Data Analytics - Course Details at the same time	Load Testing
Verify if site works effieciently when 500 users access Data Analytics - Course Details at the same time	Load Testing
Verify if site works effieciently when 1000 users access Data Analytics - Course Details at the same time	Load Testing
Verify if site works effieciently when 50 users access Data Analytics - Certification at the same time	Load Testing

Verify if site works effieciently when 100 users access Data Analytics - Certification at the same time	Load Testing
Verify if site works effieciently when 500 users access Data Analytics - Certification at the same time	Load Testing
Verify if site works effieciently when 1000 users access Data Analytics - Certification at the same time	Load Testing
Verify if site works effieciently when 50 users access Data Analytics - Schedule at the same time	Load Testing
Verify if site works effieciently when 100 users access Data Analytics - Schedule at the same time	Load Testing
Verify if site works effieciently when 500 users access Data Analytics - Schedule at the same time	Load Testing
Verify if site works effieciently when 1000 users access Data Analytics - Schedule at the same time	Load Testing
Verify if site works effieciently when 50 users Enroll Now Data Analytics Bootcamp at the same time	Load Testing
Verify if site works effieciently when 100 users Enroll Now Data Analytics Bootcamp at the same time	Load Testing
Verify if site works effieciently when 500 users Enroll Now Data Analytics Bootcamp at the same time	Load Testing
Verify if site works effieciently when 1000 users Enroll Now Data Analytics Bootcamp at the same time	Load Testing
Verify if site works effieciently when 5000 users Enroll Now Data Analytics Bootcamp at the same time	Stress Testing
Verify if site works effieciently when 10000 users Enroll Now Data Analytics Bootcamp at the same time when discounts are available	Peak Load Testing
Verify if site works effieciently when 25000 users Enroll Now Data Analytics Bootcamp at the same time when discounts are available	Spike Testing
Verify if site works effieciently when 50 users Submit Review for Data Analytics Bootcamp at the same time	Load Testing
Verify if site works effieciently when 100 users Submit Review for Data Analytics Bootcamp at the same time	Load Testing
Verify if site works effieciently when 500 users Submit Review for Data Analytics Bootcamp at the same time	Load Testing
Verify if site works effieciently when 1000 users Submit Review for Data Analytics Bootcamp at the same time	Load Testing
Verify if site works effieciently when 5000 users Submit Review for Data Analytics Bootcamp at the same time	Stress Testing
Verify if site works effieciently when 50 users Share course for Data Analytics Bootcamp at the same time	Load Testing
Verify if site works effieciently when 100 users Share course for Data Analytics Bootcamp at the same time	Load Testing
Verify if site works effieciently when 500 users Share course for Data Analytics Bootcamp at the same time	Load Testing
Verify if site works effieciently when 1000 users Share course for Data Analytics Bootcamp at the same time	Load Testing
Enterprise	
Verify if site works effieciently when 50 users fill the form of "Send us a message" to contact company at the same time	Load Testing
Verify if site works effieciently when 100 users fill the form of "Send us a message" to contact company at the same time	Load Testing
Verify if site works effieciently when 500 users fill the form of "Send us a message" to contact company at the same time	Load Testing
Verify if site works effieciently when 1000 users fill the form of "Send us a message" to contact company at the same time	Load Testing
Verify if site works effieciently when 50 users are giving feedback to the company at the same time	Load Testing
Verify if site works effieciently when 100 users are giving feedback to the company at the same time	Load Testing
Verify if site works effieciently when 500 users are giving feedback to the company at the same time	Load Testing
Verify if site works effieciently when 1000 users are giving feedback to the company at the same time	Load Testing
Verify if site works effieciently when 50 users are going to call the company at the same time	Load Testing
Verify if site works effieciently when 100 users are going to call the company at the same time	Load Testing
Verify if site works effieciently when 500 users are going to call the company at the same time	Load Testing
Verify if site works effieciently when 1000 users are going to call the company at the same time	Load Testing
Verify if site works effieciently when 50 users are going to check the location of company at the same time	Load Testing
Verify if site works effieciently when 100 users are going to check the location of company at the same time	Load Testing
Verify if site works effieciently when 500 users are going to check the location of company at the same time	Load Testing
Verify if site works effieciently when 1000 users are going to check the location of company at the same time	Load Testing

Verify if site works effieciently when 5000 users are going to check the location of company at the same time	Stress Testing
Verify if site works effieciently when 10000 users are going to check the location of company at the same time while recruiting going on	Peak Load Testing
Verify if site works effieciently when 50000 users are going to check the location of company at the same time while recruiting going on	Spike Testing
